Drexel Defol	Pre-harvest application

Chemicals listed above came from NDSU bulletin A-1038. Always consult your field representative or manufacture representative for proper use and label qualification in your state. Label acceptance may vary from state to state. Only use these chemicals under the label recommendations.

This bulletin should be used for chemical application possibilities only. Label recommendations should be followed at all times. Failure to follow label can result in commercial rejection of your crop.

This bulletin serves as a guideline for production. Conditions may vary in individual fields. Good agronomic practices should always be followed by the grower to ensure the maximum potential.
